

- 1.2. Students unable to attend a school for health-related reasons, or where the division cannot provide sufficient qualified resources within its operations to ensure the health or safety of a student, may be offered educational services through a hospital-based, online or tutor-based program.

2. A request for the giving of essential medication and/or the administration of an essential procedure must be supported by a statement from the physician prescribing the essential medication or procedure, which statement must include, but is not limited to the following:
 - 2.1. The specific medical restrictions to be addressed;
 - 2.2. The essential medication and/or the essential procedure prescribed to address the specific medical restrictions.
 - 2.3. Confirmation that giving of the essential medication and/or the administration of the essential procedure.
 - 2.3.1 Must take place during school hours in order to address the medical restrictions
 - 2.3.2 For medical reasons cannot take place or be administered solely outside of school hours;
 - 2.4. The amount, dosage, and frequency of the giving of the essential medication
 - 2.5. The frequency of the administration of the essential procedure;

10. The principal is to ensure that daily medical records are established and maintained.

10.1 See Appendix A-Authorization/Request for Administration of Essential
Medication and Equipment
