

EMPLOYEE WORKING ALONE

Background

At any given time, Prairie South School may have employees who are working alone, whether regularly or on an occasional basis. This includes working without close or direct supervision by themselves, without colleagues or in isolated work areas during non-office / non-school hours.

Definition of "Working Alone"

Saskatchewan Occupational Health and Safety Regulations, 2020 Section 3 defines working alone as an employee who is working at a "worksite as the only worker of the employer or contractor at that worksite, in circumstances where assistance is not readily available to the worker in the event of injury, ill health or emergency."
